

Our Goal

We will contribute to building a sustainable society by creating new value for resources through surface modification of various materials.

The population of planet Earth has surpassed 8 billion. People finally realize that resources, food, and the environment are limited. Grasping for clues to solving issues faced by the planet and its people using our surface modification technologies, Vision 2030 will enable us to take a big step toward a sustainable society under the slogan, “Transforming a diverse range of surfaces with the power of science.”

The 2000s to 2021

Launch of the 1st
Medium-Term
Management Plan in
2013

2022 to 2025

Building a foundation for the
achievement of “Vision2030”
Period of the 4th Medium-Term
Management Plan

2028
Centenary

Vision 2030

**Transforming a diverse
range of surfaces with the
power of science**

We will continue to be a company that is
trusted by our customers and society and
that continues to grow through the
resolution of social issues.
