

Parker Surface Technologies (Shanghai) Co., Ltd.  
(帕珂表面处理技术(上海)有限公司)  
Begins Operation in Jinshan District

On May 26, 2017 a ceremony was held to commemorate the opening of the new building and factory of Parker Surface Technologies (Shanghai) Co., Ltd. (帕珂表面处理技术(上海)有限公司) in the Shanghai Jinshan Second Industrial Zone.

The aim of this project is the further development of Parker Surface Technologies (Shanghai) Co., Ltd. (帕卡表面处理科技(上海)有限公司) in Jading District which was established by Nihon Parkerizing as a wholly owned subsidiary in 2007. The new company was established to expand sales of Nihon Parkerizing's products in China and provide speedy applied development that meets the needs of the Chinese market. Construction began in June 2016 and has now been completed and operation started.

It is anticipated that the company will play a significant role in the development of applied technology in the Nihon Parkerizing Group in East Asia in the future.
